

厳正な審査の結果、第6回ホスト-ゲスト化学シンポジウムのポスター賞(5件)が決定しましたので、お知らせ致します。おめでとうございます。

P011 Sugino Misa (Graduate School of Engineering, Osaka University)
Luminescence Switching Depending on Guest Molecules in Inclusion Crystals of 9,10-Bisaminophenylanthracene

P012 Furukawa Junichi (Graduate School of Arts and Sciences, The University of Tokyo)
Heterogeneous Arrangement of 11 Group Metals (Ag(I), Cu(I)) on Disk-Shaped Ligands

P018 Suzuki Mitsuharu (University of California, Los Angeles)
Toward a Controlled Synthesis of Carbon-Rich Nanotubular Materials via Topochemical Polymerization of Dehydroannulenes

P020 Yamaga Hiroyuki (Graduate School of Engineering Science, Osaka University)
Two-Dimensional Homochiral Nanoporous Molecular Network of Dehydrobenzo[12]annulenes: Design Strategy, Control, and Induction

P021 Nakatani Yuji (Graduate School of Engineering, Nagoya University)
Synthesis of Novel Chiral Catenanes Utilizing Amidinium-Carboxylate Salt Bridge Formation and Their Stimuli-Responsive Behavior
