

2nd Host Guest Chemistry Symposium の Impressive Presentation Award (ポスター賞) は、以下の 6 名の方々が受賞されました。

P1-06 高石和人 氏 (京大化研)

Synthesis of Higher-Order Oligonaphthalenes and Optical Property of TPP, TPPZn Adducts

P1-23 島津昭仁 氏 (東理大理工)

Determination of DNA Binding Modes of Ellipticine Analogs with Orientation of Dye Molecules in DNA Based Films with Chain Alignment and Determination of Binding Constants K_{ass} with QCM

P2-09 田麦顕大 氏 (阪大院工)

Fluorescence Modulations Depending on Guest Molecules in Including Crystals of 9,10-Bisphenylanthracene Derivatives

P2-22 酒田陽子 氏 (東大院理)

Selective Formation of Cage-Shaped and Cyclic Ti(IV)-Pd(II) Complexes in Multicomponent Self-Assembly and Their Reversible Interconversion

P2-27 杉川幸太 氏 (九大院工)

Construction of SWNTs Composites Using Hemi-Artificial Curdlans Bearing Ionic Groups and Their Hierarchical Self-Assemblies Through Electrostatic Interaction

P2-35 張替淳一 氏 (宇都宮大工)

Construction of Interconversion System Between [2]Rotaxane and [2]Catenane - Effects of the Structure of Axle and Metal Ions -
